

S3 ASIC Semiconductors Ltd Quality Policy

S3 ASIC Semiconductors Ltd, a division of Adesto Technologies Corporation, Inc. delivers custom integrated circuits to leading OEMs, operators and semiconductor companies in satellite communications, wireless, industrial control, instrumentation and IIoT (Industrial Internet of Things) markets. With core expertise in analog, mixed-signal and RF design, plus data converter intellectual property (IP), we create and arrange the supply of complex custom Application Specific Integrated Circuits (ASICs) quickly, economically and reliably.

S3 ASIC Semiconductors has adopted a quality management system (QMS) based on ISO 9001:2015 to:

- Consistently provide products that meet customer and applicable statutory and regulatory requirements;
- Ensure all staff doing work that affects the performance and effectiveness of the QMS are competent;
- Continually improve the effectiveness of our QMS;
- Establish quality objectives aligned with the strategic direction of the business.

We aim to maintain our impeccable reputation as a top-quality business, build long-term relationships with existing customers and attract new customers.

This policy is approved by S3 ASIC Semiconductors (ASIC & IP Division of Adesto Technologies) top management and applies to S3 ASIC Semiconductors' operations worldwide.

Dermot Barry, VP of ASIC & IP Division, Adesto Technologies
